This is what I have:

<sup>[1]</sup> Existing source registrations were submitted to the EPA under the Federal Indian Country Minor NSR Program at 40 CFR 49.160. We conducted an analysis of the registration information, including production and emission data, from sources on the Uintah and Ouray Indian Reservation. Data analyzed is current as of the 1<sup>st</sup> quarter of calendar year 2015. Our analysis is discussed in the technical support document for this rule, both of which can be found in the docket for this rule.

Can we add the specific citation within Part 49 that requires submittal of registration? I think I recall you found that citation, Claudia for Elyana when she was helping us address whether we could use operator names as we share registration data.

Could you two help me by figuring out how we should be citing the registration data and analysis, which are referenced numerous times throughout the draft FR notice?

Thanks,

Claudia
